[Agenda 11.12.17 Bioeconomy WG.pdf](#)

Thank you all for a good and productive WG meeting, with a lot of good inputs and ideas for the Bioeconomy WG in 2018. The Bioeconomy annual work plan 2018 will be uploaded to the Bioeconomy WG site in January.

In the meanwhile, dont forget to [visit the Pilots4U website](#) and to add any pilot and demonstration facilities present in your region to the database.

Find all presentations below.

We are happy to invite you to the last Bioeconomy WG meeting of the year on **Monday 11th December from 10:30 to 12:00.**

The meeting will be a great opportunity to catch up on the latest developments in the bioeconomy sector, including the Bioeconomy Manifesto, the ERRIN Project Development Week, etc.

Moreover, with a look towards 2018, we will open up the floor for all participants to share your opinions on the Bioeconomy WG's activities over the past year, as well as, give **your inputs** to issues you wish to see on the agenda for 2018.

To celebrate this year's last meeting, we encourage all participants **to bring a few regional "bio-snacks" from your region**, which we will all share in a pot-luck style following the meeting.

We look forward to seeing you there and hearing your opinion!
