

Title: Cultural heritage as a catalyst for the future of Europe - webinar

Europe Day 2020 will be marked by a special webinar on how cultural heritage can be a powerful catalyst for the future of Europe.

To mark the 70th anniversary of Schuman Declaration, high representatives from the EU institutions will meet for the first time since the COVID-19 outbreak to engage in a discussion on European cultural heritage. Together they will discuss the major role the sector will play in preparing for the recovery and transformation of Europe's society and economy.

The webinar is co-hosted by Europeana and Europa Nostra, acting on behalf of the European Heritage Alliance.
