

Title: Report launch: Science, research & innovation performance of the EU 2020

The report 'Science, Research and Innovation performance of the EU, 2020' (SRIP) will be launched during an online event this May. The evidence-based report presents an overview of Europe's R&I performance in the global context.

The SRIP 2020 report will guide policymakers on how R&I policy will need to adapt to support a smooth transition to a new paradigm that increases opportunities and mitigates risks. It is a flagship biennial publication by the European Commissions DG for Research and Innovation. It is the third edition in the series.

For details of how the event will run and the speakers, please see the attached programme.
