

Title: Should I use blockchain? Sector challenges and future trends

An upcoming webinar will present the current status of blockchain technology and the sectors that can benefit from blockchain-based solutions.

Mr. Vytautas Černiauskas, expert at CIVITTA, will deliver the presentation as part of the BlockStart project.

The session will cover:

- Where blockchain is successfully applied today
- Which sectors stand to benefit
- How and why companies should consider blockchain.

Register for and learn more about the event [here](#).
