

Title: Sex and gender dimension in frontier research

The ERC, in tune with its missions and the Commission's goals, will host an all-day workshop showcasing and discussing innovative approaches to address gender dimensions in research.

**The event will cover:**

- Gender in medicine and medical care
- Gender, demographics and behaviour
- Gender and fairness in the digital society

The event will close with a policy dialogue. The goal of the workshop is to raise awareness of the gender dimensions in designing and conducting research and the influences on the usefulness of the results.

Register [here](#). The event plans to go ahead at the ERC in Brussels but may take place online, a decision will be taken nearer the time.
