

Title: EU Green Week partner event: Traceability and circularity of electrical devices and their waste

The Delegation of Catalonia to the EU is hosting a partner event at EU Green Week, the session will explore the development of an upcoming R&I project. The project aims to find innovative solutions in the field of circular economy and waste management.

The speakers will consider the project's challenges, proposed solutions and its possible impact. See the attached invitation for more information and register [here](#).
