

Title: MED Green Growth at Ecomondo 2020

The Interreg MED Green Growth project will be present at the technological and industrial innovation event Ecomondo. The event brings all sectors of the circular economy together.

At Ecomondo, Green Growth provide a chance for stakeholders to:

- Get to know representatives of the Interreg MED programme
- Learn about policy outcomes and capitalisation strategies of the Green Growth Community
- Know about opportunities to transfer and replicate results from different projects
- Network and identify new partnerships.

Ecomondo will take place as an online event taking into account interactive tools and innovation methodologies. Green Growth will participate in activities during day 2 and day 3.
