

Title: EU Forest Strategy post-2020 in the context of post-EU Green Deal future-fit Europe

A webinar asking how to maximise the contribution from sustainably managed and multifunctional forest for climate neutrality, biodiversity and a growing circular bioeconomy, will take place in December.

Organised by East and North Finland EU Office, the ERIAFF Network, the European State Forest Association (EUSTAFOR) and Junta de Castilla y León, the workshop will discuss the future of the EU forest strategy. It will touch upon:

- Forests in circular low-carbon economy
- Forest-based value chains, including digitalisation
- How to coordinate policies in the new European Forest Strategy?

Registration is open [here](#), learn more in the attached invitation.
