

Title: Digital opportunities for the future of Agrifood, Forestry and Environment

The DIVA consortium (Innosup project), in cooperation with the Enterprise Europe Network, invites you to the virtual event "Digital opportunities for the future of Agrifood Forestry and Environment: Contributions of the DIVA project and next steps" which will take place on the 4th & 5th March 2021 (100% online and free of charge).

The event is intended for providers of digital tools and solutions as well as companies from all over Europe working in the agrifood, forestry and environment sectors. The aim is to foster the sharing of knowledge and expertise, to inform about future trends and technologies and to promote R&D, technical and business cooperations.

The programme comprises conferences and workshops featuring expert speakers (EASME, INRAE France, Funding Agency Denmark, University College of Dublin, Vicomtech, etc.). Attendees will also have the chance to schedule and participate in b2b meetings on both days. Do not miss the chance to be part of this event and get to know other companies from all over Europe.
