

## Title: European Research and Innovation Days 2021

The 2021 edition of the European Research and Innovation Days will take place as an online event this coming June. The European Commission's flagship event brings together policymakers, researchers, entrepreneurs and the public to debate and shape the future R&I agenda in Europe and beyond.

The event will take place from 23 - 24 June 2021 and serve as an opportunity to mark the beginning of the new R&I programme Horizon Europe as well as the strengthening of the European Research Area.

The official programme for EU R&I Days is available [here](#). **Registration is now open [here](#).**

Further details, including opportunities, registration and events involving ERRIN members, will be added as soon as they are available. Visit the official event page [here](#).
