

Title: How to reactivate vacant residential buildings in need of refurbishment

A webinar on how to become actively engaged in the reactivation of vacant residential buildings and flats using the ALT/BAU approach will take place this April.

The session will present field-proven methods, approaches and city examples, with city representatives sharing their experiences of:

- Inventory and monitoring of vacant buildings
- Activating and supporting owners
- Activating and supporting potential buyers and investors
- Connecting and coordinating public and private stakeholders.
