

Title: Workshop on Personalising Health Industry in Regions

**The Coordination and Support Action Regions4PerMed** invites you to join the online Workshop on Personalising Health Industry dedicated to supporting the implementation of **Personalised Medicine** approaches throughout the European Regions. The workshop addresses regional R&D Ecosystems for Personalising Health Industry with a spotlight on the Free State of Saxony.

The Workshop is based on a conference on Personalising Health Industry from last October that is now open for re-viewing. Feel free to have a look at the recorded sessions of your interest when [registering for the Workshop](#).
