

Title: Workshop on Regional Translational Ecosystems of Personalised Medicine

**The Coordination and Support Action Regions4PerMed** invites you to join the online Workshop on Personalising Health Industry dedicated to support the implementation of **Personalised Medicine** approaches throughout the European Regions. The Workshop addresses regional translational ecosystems supportive of Personalising Health Industry.

The Workshop is based on the conference on Personalising Health Industry from last October that is now open for re-viewing. Feel free to have a look at the recorded sessions of your interest when [registering for the Workshop](#).
