

Title: Launch of Horizon Europe in the Brussels-Capital Region

Innoviris and NCP Brussels have invited keynote speakers from the Brussels-Capital Region and the European Commission to officially launch this ambitious R&I programme on Thursday 6th May 9AM. We will learn from them how the green and digital transitions, a main policy priority of the European Union, have shaped this ambitious programme with a budget of €95.5 bn for the period 2021-2027.

The afternoon session will cut-across the different work programmes, namely the 2nd pillar “Global challenges and European industrial competitiveness”, with a focus on the clusters Digital, Industry and Space (cluster 4), Climate, Energy and Mobility (cluster 5) and Food, Bioeconomy, Natural Resources, Agriculture and Environment (cluster 6).

From these sessions, participants should gain knowledge on Horizon Europe intervention logic and better assess the various and specific funding opportunities across the programme. These should help them get prepared to answer the calls for proposals.

This webinar is open to any potential applicants **established in the Brussels-Capital Region**, the universities of Brussels, research centres, companies of all size, public and non-profit organisations.
