

Title: European Development Days 2021: Sustainable Future

The 2021 edition of the European Development Days will see events focus on biodiversity loss, climate change and environmental degradation. EDD will focus on two themes and topics:

- A green economy for people and nature
- Protecting biodiversity and people.

Considering the role of the European Green Deal, the event will provide a decisive moment for analysis and reflection on the road to CBD COP15 and Glasgow COP26.
