

Title: Horizon Europe - Civil Security for Society Info Day, Brokerage Event and training for stakeholders

Participate at the first official event on security under the new Horizon Europe programme!

This event is organised by SEREN4 in close cooperation with the European Commission and the Research Executive Agency.

The Information day focuses on the first calls under Cluster 3, the rules for participation and the horizontal aspects, all presented by the EC & REA officers. These calls offer new research funding opportunities to research institutions, universities, industries, SMEs, civil society organizations, practitioners and other security stakeholders. Participation at the brokerage event will help you create new partnerships and consortia for your security proposals.

All interested parties are welcome.
