

Title: Baltic Science Network (BSN) final conference & Baltic Sea Science Day

The Baltic Science Network's (BSN) final conference and the Council of the Baltic Sea States (CBSS) Baltic Sea Science Day will take place this June. The conference offers a unique opportunity to discuss the final outcomes of the BSN project with actors from politics and science at regional, national and European levels and to define the way forward for the Baltic Science Network. In this context, a new vision will be presented, intended to guide the course to enhanced competitiveness and excellence of the Baltic Sea science region and to make a contribution to the realisation of the European Research Area.
