

Title: Dance Digital - Baden-Wurttemberg and South Wales connect

DANCE DIGITAL is the kick-off event of a new partnership between Clwstwr, a programme to stimulate R&D and innovation in the South Wales media sector, and MFG Baden-Wurttemberg, an institution to promote film culture, the film industry and cultural and creative industries in the South West of Germany.

Join Clwstwr and MFG Baden-Wurttemberg to explore the opportunities that digital innovation presents to dance and hear from dancers about their experience of making work during COVID-19.

The focus of this international partnership is to bring together creative innovators, businesses and organisations from across South Wales and Baden-Wurttemberg to encourage collaboration, cross-border working and share knowledge and best practice. The event will include presentations from three projects from each media cluster sharing new perspectives on dance and media as well as a digital room open to participants for networking after the event.
