

Title: RECIPROCITY - Western European Mobility Roadmap Workshop

The **RECIPROCITY** project organises a set of three cross-border **Mobility Roadmap Workshops (Western, Central and Eastern)** destined and open to any interested mobility stakeholder willing to learn more about the previous results of RECIPROCITY and analyse different mobility use cases for replication adapted to local cases.

This workshop will focus on **Western European geographic area** and is organised by NextMove, ERRIN, Greenovate! Europe and IAF.

The western workshop will gather a group of renowned mobility experts from the so-called “lighthouse cities” aiming to use their experience and expertise to help “follower communities” and other less mobility-advanced cities identify replicable mobility solutions and opportunities adapted to different local contexts. As such, relevant replicable use cases as well as the most effective ways to implement them in different geographic areas will be identified and discussed. This will result in the creation of Replication Roadmaps for “follower cities” including aspects such as long-term strategy, requirements for governance and roles, resources and responsibilities, etc.

AGENDA:

10:00 – 10:10 Welcome & introduction

10:10 – 10:25 Presenting RECIPROCITY status quo

10:25 – 11:10 How to implement a smart mobility solution based on Hydrogen

11:10 - 11:20 Break

11:20 - 12:20 Workshop

- Introduction to workshop
- Presenting most suitable Use Cases and projects
- Evaluation of the Use Cases (Interactive participation)
- Summary of results

12:20 - 12:30 Questions & next steps

Interpretation will be available in English, French and Spanish. The event will be held on Zoom.
