

Date: 19-20 November 2018

Venue: Government of Catalonia Delegation to the EU, 227, Rue de la Loi, 1040 Brussels

Objective: to foster partnerships meant in a broader sense within ERRIN members and between ERRIN and other network members, such as CORAL, EUREGHA, ECHAlliance. Building specifically a H2020 consortium is *not* the ultimate goal of this event. It can be one of the results, but creating partnerships can also be for knowledge exchange, staff exchange, a strategic partnership, advocacy, solving an institutional/regional challenge, etc.

Structure: from lunch to lunch; two half days. For the planned speakers and sessions, please consult the draft agenda.

Number of participants: 40 – 60.

Thematic areas to discuss on day #1:

- Personalised medicine - Implementation and up-scaling
- Digital health – Big data and AI
- Social care – Skills and innovation
- Environmental determinants of health

Cross-cutting issues to discuss on day #2:

- Gender
- Ethics
- Sustainability
- Public/Patient/user engagement and empowerment

Please register on the ERRIN website: <https://www.errin.eu/events/health-partnering-event>

Please note that your registration will not be confirmed automatically – you will receive an email once your participation is confirmed. We principally expect technical expert to attend this event as participants will have to take an active part in the group discussions. Brussels representatives will be accepted only if they accompany their regional experts.

We hope you look forward to this partnering event as much as we do!
