WHAT IS ERRIN'S PROJECT DEVELOPMENT TOOL?

ERRIN's Project Development Tool acts as a central place for our members to explore, express interest and engage with a variety of funding opportunities, ensuring a bottom-up process tailored to members' interests.

HOW CAN I MAKE THE MOST OF IT?

- **Express interest in pre-identified calls**, leading to streamlined project development activities within the Working Groups.
- **Connect with members** who have expressed interest in the same calls, fostering collaboration and partnership opportunities.
- **Develop Consortia**. Calls with high interest will trigger the organisation of project development activities through ERRIN's Working Groups and Task Forces.

HOW CAN I USE THE PDT?

- Log in to ERRIN's website and access the **Project Development Tool**.
- Check out the calls using filters to tailor your search.
- Express your interest and connect with other organisations.

EXPRESS YOUR INTEREST

MEMBERS CAN

- **Express interest** in a call to explore synergies with other organisations.
- Express interest **on behalf of stakeholders** who don't have an ERRIN user account.
- Upload a **partner search** with a concrete idea, seeking partners to collaborate with or to expand the consortium.

EXTERNAL ORGANISATIONS CAN

- Upload a **partner search** if they are willing to coordinate a consortium and are looking for partners.

OUR WEBSITE

ERRIN's website is a hub for our activities.

You can create a personal ERRIN user account for direct access to all our services and member-only sections of our website.
