

COMMUNITY DAY, 17TH JANUARY 2023

OASC AND BEYOND

The digital transformation and innovation in Cities, businesses and industry has been profoundly reconfiguring the ways in which services are provided and knowledge and value are generated. The requirements of the public sector, which must address the growing complexity of challenges and the increasing demands of citizens, are ever more important to ensure an alignment of digital solutions and services for cities and communities.

OASC aims at supporting the cities and communities globally in the path towards sharing and re-using

of digital, data-driven solutions, by gathering requirements and needs from its members. In this community day we aim at better understanding how OASC can further support this development process by setting up discussion sessions and working groups.

We will start the day by contextualizing digital transformation and innovation in cities (with the support of the research done in DIGISER project, which created a set of indicators based on the contributions of more than European 250 cities), the second session will be about OASC's role in supporting the cities in this transformation and setting up a vision for the future and the last session will be dedicated to MIMs and the way they can contribute to the practical implementation of the interoperability and collaboration between cities and communities.

08:30-09:00	Registration
09:00 - 09:30	Welcome to OASC community day Paulo Calçada, Karl-Filip Coenegrachts, Martin Brynskov
09:30 - 10:15	The DIGISER project
	<i>The grand challenges of European cities</i> – M. Gauk (DIGISER Project officer) <i>DIGISER conceptual framework and key results</i> – G. Concilio (DAStU, Politecnico di Milano)
10:15 - 11:15	“Digital transformation and innovation: status needs of European cities” Facilitator: M. Campolargo (OASC)
	<i>Data management in European cities</i> - M. Secchi (DAStU, Politecnico di Milano) <i>Institutional capacity of European cities</i> - I. Bianchi (DAStU, Politecnico di Milano) <i>Digital Maturity of European cities</i> - I. Mariani (DESIGN, Politecnico di Milano) Markku Markkula (tbc) Gianluca Misuraca (tbc)
11:15-11:30	Coffee break
11:30 - 12:30	Round tables “Digital transformation: what next?”
	Agata Krause (tbc) Wim De Kinderen (tbc) Lodewijk Noordzij (tbc) Olli Voutilainen (tbc)
12:30 - 12:45	Feedback on the round tables: key support needs for cities digital transformation and next steps.

12:45 - 13:45	Lunch	
13:45 - 14:15	OASC assets, challenges and vision	
	OASC a network of cities – Karl-Filip Coenegrachts (OASC) OASC look beyond – Paulo Calçada (Porto Digital)	
14:15 - 15:15	Working groups	
	<i>Community working Group (2)</i> <i>Standardization working group (2)</i>	
15:15 - 15:45	Feedback from the working groups	
15:45 - 16:30	MIMs structure and how to implement it?	OASC local network structure and how to implement it?
	OASC tech team: Michael Mulquin (OASC), Thimo Thoeye (OASC), Rick Schager (OASC) <i>MIM 4: Trust Personal data management. HEL, MDG, Vastuu</i> <i>MIM 7: Places – Geospatial Information Management. JRC, HEL</i>	OASC Council leads: Paulo Calçada (Porto Digital), Roland Van Der Heijden (Rotterdam Municipality), Brigitte Lutz (City of Vienna)
16:30 - 16:45	Coffee break	
16:45 - 18:00	MIMs future steps	
	Michael Mulquin (OASC) Thimo Thoeye (OASC) Rick Schager (OASC)	
19:00	Community Dinner
