CARBONICA Excellence Hub at a glance

Funded by
the European Union

Carbonica

3 National Multi-actor Platforms

Challenge: Weak innovation ecosystems across the three widening countries

Strengthen place-based innovation and excellence in carbon farming collective understanding and broad uptake.

Connect | Innovate | Accelerate

Challenge: fragmented networks between science and industry and lack of a mature operational framework on Carbon Markets and Carbon Management Economy

Bridge the gap between science and industry • creation of business opportunities • establishing poles of attraction for innovators and investors

Co-create | Co-develop | Co-decide

Challenge: Ineffective and limited in scope local-based initiatives and poor infrastructure and capacity in CF

Foster long-term cross border collaboration

Motivate knowledge transfer, sharpen entrepreneurial skills & collective capacity

Design | Validate | Plan

Challenge: Lack of a coherent and confluent and strategic planning on Carbon Farming Research in the three Widening Countries

Action planning and development of a **long-term R&I joint strategy**. Develop lab prototypes on CFA solutions and CF protocols

North Macedonia:

Annual: Barley, Broccoli, Cabbage
Permanent: Apple, Vine

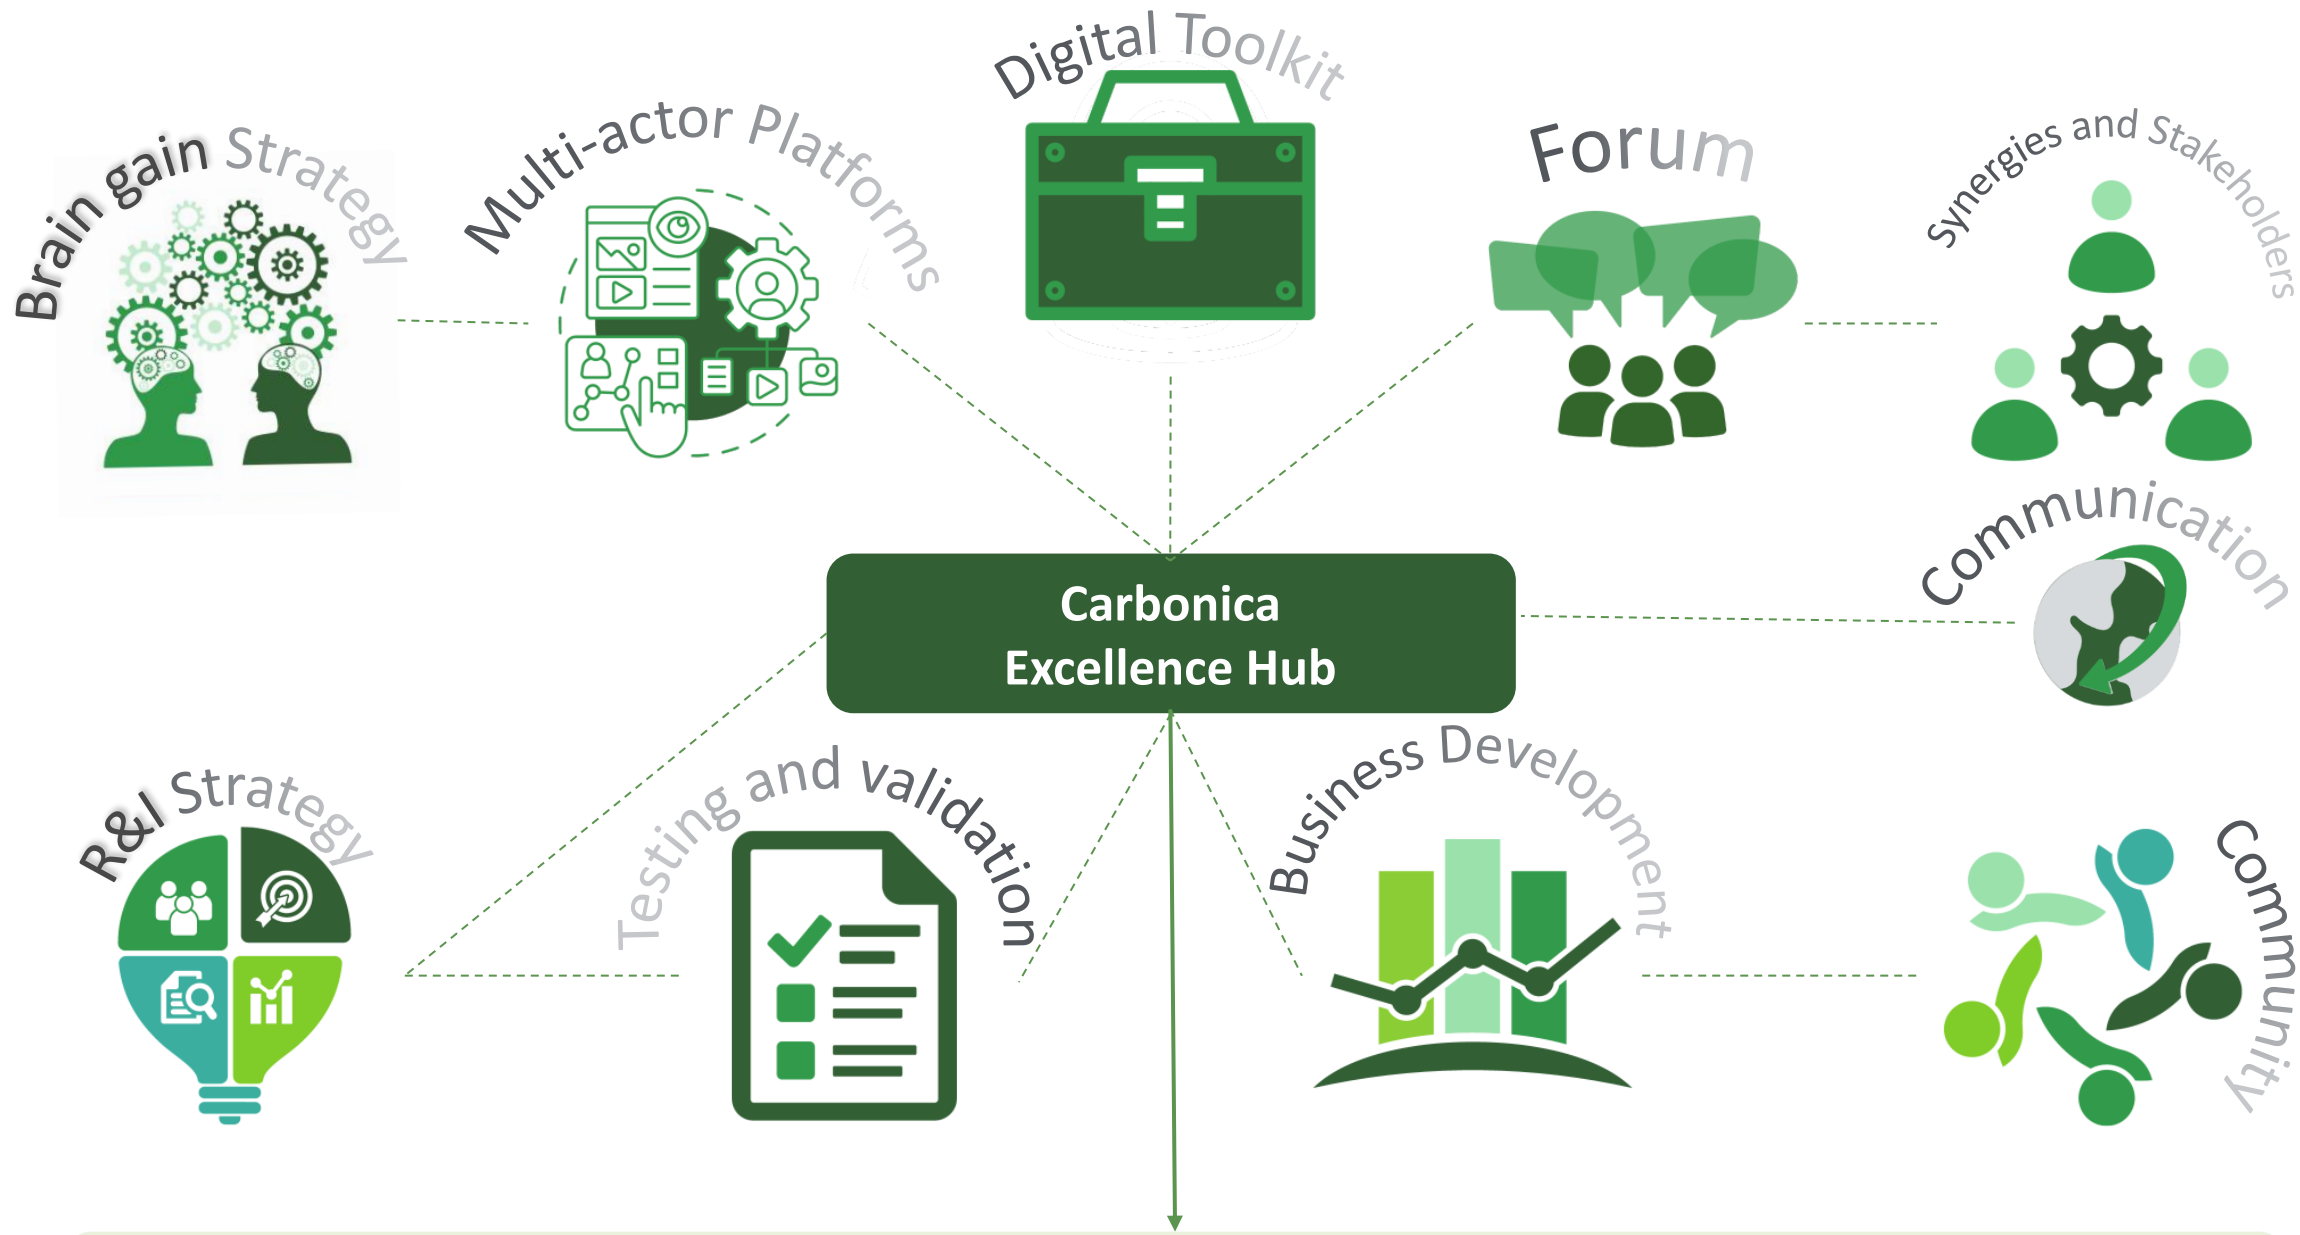

Greece:

Annual: Broccoli
Permanent: Apple, Peach,
Olive, Vine

Cyprus:

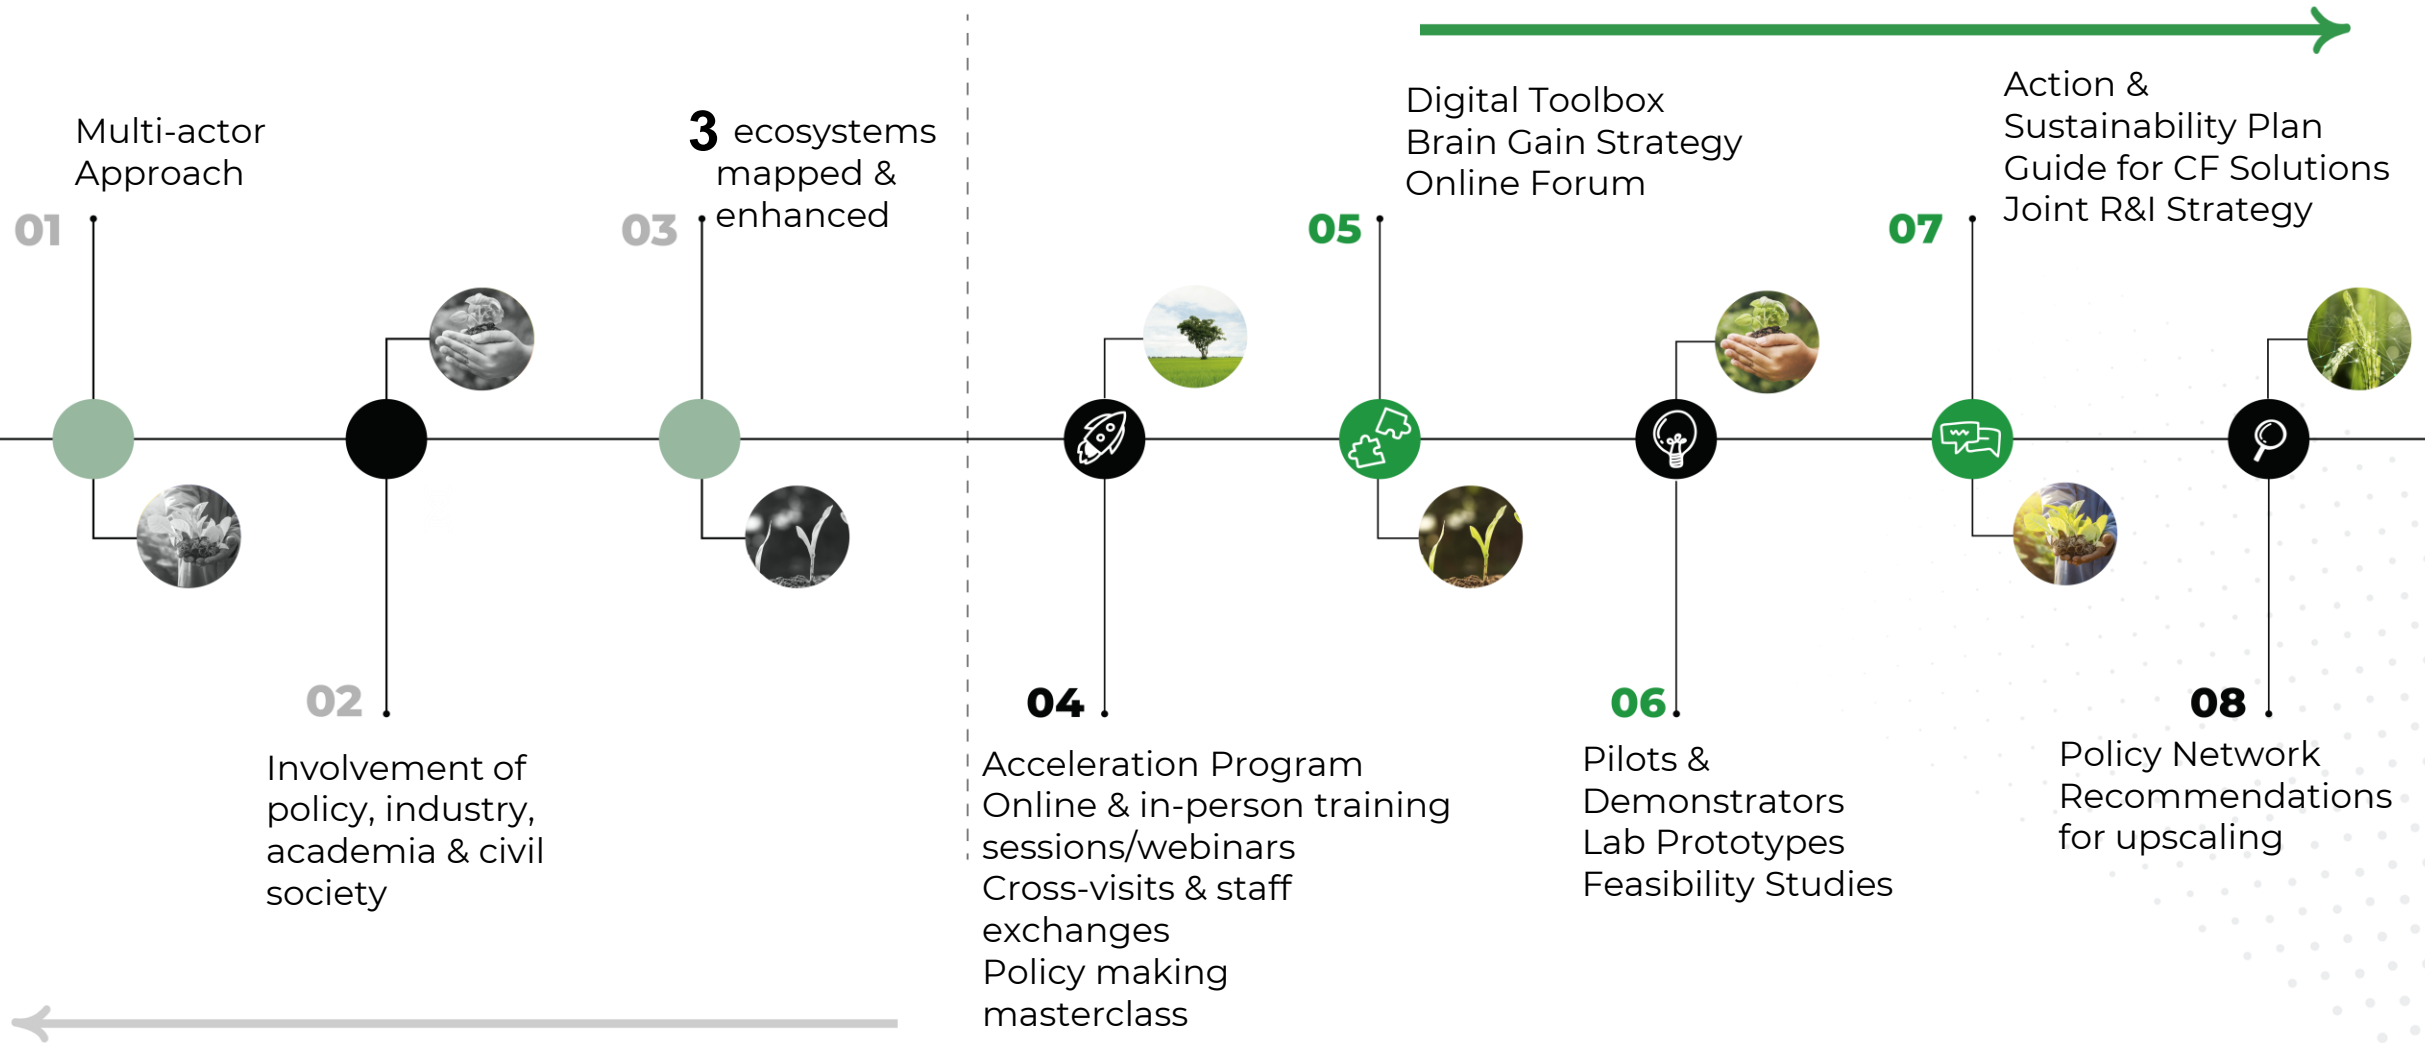

Annual: Cereals, Potatoes
Permanent: Vines, Olive,
Citrus

Carbonica

What is coming next?
