
The RIPEET Lab – Key learnings on stakeholders’ engagement methods

Wednesday 17 January 2024 (13:30 to 17:30) - ERRIN Office (Rue du Luxembourg, 3, 1000 Brussels)

The RIPEET Lab is the closing chapter of the project peer-learning programme, in which six mirrors ecosystems and the three pilot territories, the Outer Hebrides (UK), Ostrobothnia (FI) and Extremadura (ES) engaged in mutual learning activities and exchanged good practices on stakeholder’s engagement and co-creation methodologies for responsible energy transition.

The event will be organised in-person on Wednesday 17 January 2024 (13:00 to 17:30) in ERRIN Office (Rue du Luxembourg, 3 1000 Brussels).

The event will involve RIPEET partners and external stakeholders, giving a specific focus to the **key learnings to replicate stakeholders’ engagement methods in other domains and contexts**. The event aims to:

1. Identify differences and synergies between participants for the implementation of stakeholders’ engagement methodology
2. Identify concrete learnings to ensure the re-use of RIPEET methodology in different contexts, both geographical (more regions implementing it) and sectorial (more domains to implement co-creation processes).
3. Explore future collaboration opportunities focusing on stakeholders engagement across different sectors and looking into specific HORIZON Europe calls

The meeting will be facilitated by [Sticky Dot](#).

The registration form is available [here](#). Due to limited capacity of the room, confirmation of participation will be sent in January.

Draft agenda

13:15	Registration and welcome coffee for external participants
13:30	Opening and presentation of RIPEET by the project coordinator Insight into the Transition Lab process and key take away from Ostrobothnia
14:00	The RIPEET approach – Stakeholder engagement and co-creation methodologies for transformations across sectors
<p>Based on the experience of the RIPEET regions in implementing the Transition Lab approach, this session will identify different EU policy instruments and funding schemes on which the RIPEET methodology can be useful, and therefore replicated. By focusing this session on wider EU policies and initiatives, we aim at linking the territorial approach of RIPEET partners and the knowledge of Brussel-based representatives.</p> <p><u>Key questions</u></p> <p>How do stakeholder engagement relate to different EU funding schemes and policy instruments?</p> <p>With this question, we aim at identifying and listing other EU initiatives (both on policy, but also funding instruments) in which stakeholders engagement can be implemented.</p> <p>Where can you see a role for RIPEET methodology in the selected initiatives?</p> <p>With this question, we aim at linking the identified initiatives with the RIPEET methodology, as an introduction to potential future collaboration, explored in the third session.</p>	
15:40	Break
16:00	Future collaborations’ opportunities on stakeholders' engagement
<p>This interactive session will focus on creating synergies and fostering exchanges on stakeholders engagement across different sectors, building on the lessons learnt from the RIPEET project and strengthening cooperation across EU regions. The session will focus on calls related to stakeholders engagement in the field of energy, climate resilience and adaptation and built environment, with deadlines in mid-2024 and early 2025.</p> <p>Three calls were selected for this activity:</p> <ul style="list-style-type: none"> • HORIZON-CL5-2024-D2-01-04: Emerging energy technologies for a climate neutral Europe • HORIZON-CL5-2024-D4-02-05: Digital solutions to foster participative design, planning and management of buildings, neighbourhoods and urban districts (Built4People Partnership) • HORIZON-MISS-2024-CLIMA-01-08: Demonstration of solutions specifically suited to rural areas and small/ medium size population entities. 	
17:30	Conclusion followed by a networking cocktail
