

## Transport Working Group Meeting

**EU mobility transition pathway**  
Monday 11 March 2023 | 15.00-16.30

ERRIN, Rue du Luxembourg 3, 8<sup>th</sup> floor, 1000 Brussels

The Transition Pathway for Mobility was launched on 26 January 2024 by the European Commission (DG GROW). ([Dedicated news on the ERRIN website](#))

The [EU mobility transition pathway](#), co-created in collaboration with national and regional authorities, industry stakeholders, NGOs, and other interested parties, aims to boost the European Union's commitment to fostering innovation, green technologies, and digital advancements within the mobility sector. It offers many opportunities to bring the industrial ecosystem together to find common solutions to upcoming challenges. Indeed, the initiative will bring a new project pipeline that will boost investments to ease the transition.

A representative from DG GROW will join this Transport WG meeting to present the initiative and the opportunities for members.

The second part of the meeting will focus on local and regional strategies to face the transformation of the sector. We are looking for regional examples to be presented during the meeting. The focus of the presentation should be on the governance structure to deal with the changes and how to involve the private sector as well as all the regional ecosystem actors.
