

## New European Bauhaus Task Force event

# Regions & Cities paving the future of the NEB

16 April 2024 | 10:00-11:30 CET

Kindly hosted by Representation of the European Region Tyrol - South Tyrol – Trentino  
45–47 Rue de Pascale B-1040 Brussels

*In the summer 2023, ERRIN has launched an internal consultation to collect the members' views on the NEB development and implementation, from a regional perspective. The outcome of this discussion process is a document gathering strategies, challenges and collecting best practices from ERRIN members. The event will be an opportunity to present key findings and recommendations from ERRIN members direct experience and underline the crucial role of regions for coherent planning and successful implementation of the New European Bauhaus. The focus will be on the role that regions and cities can play in fostering the development of more sustainable and inclusive ecosystems, adopting the NEB principles as a cross-cutting approach in several sectors. ERRIN members will present their local strategies and practices to successfully embed the NEB principles in local policies. The event will also create an open space for discussion with the European Institutions, to reflect on both the positive and the more critical aspects of the development and implementation of the New European Bauhaus. This collaboration will serve to strategically aligning NEB strategies with a long-term plan for European regional ecosystems.*
