

Monitoring and Measuring Working Group
Information session on EU initiatives related to monitoring and
measuring digital transformation

Online meeting – Friday 31 May 2024 (11:00-13:00 CEST)

The meeting will tackle the existing initiatives and projects implemented at European, regional and local levels to measure and monitor digital transformation. Organised as an comprehensive information session, it aims at:

- Exploring the wider landscape of tools used to monitor and report and digital maturity at local and regional level
- Share good practices and learning on existing tools created and implemented by local and regional authorities.
- Understanding the synergies between the different instruments and initiatives to ensure that local and regional authorities' needs are taking into account at EU level.
