

Transport Working Group Meeting

European automated mobility initiatives:

From research and testing to deployment

Monday 22 June 2026 | 14:30 - 16:30

ERRIN, Rue du Luxembourg 3, 8th floor, 1000 Brussels

Connected, Cooperative and Automated Mobility (CCAM) remains a strategic area for the transport transition in Europe, bringing together research, innovation, and deployment activities within the framework of numerous European initiatives and policy frameworks.

This meeting of the ERRIN Transport Working Group will provide an opportunity to examine the latest developments in the European connected and automated mobility landscape and to discuss how the various initiatives are contributing to the large-scale deployment of automated mobility solutions across Europe.

The session will include updates from the European Commission on key ongoing initiatives, notably the CCAM cross-border test beds, ECAVA, and the upcoming ADA CITIES call for projects. Speakers will also provide an overview of ongoing discussions regarding the future European Automotive Partnership and the work of the EURIAS expert group tasked with proposing the strategic research, innovation, and deployment agenda for this partnership (SRIAD).

The meeting will offer ERRIN members the opportunity to exchange directly with Commission representatives and stakeholders on the challenges and opportunities associated with the deployment of automated mobility solutions in regions and cities. Particular attention will be given to the role of local and regional authorities in testing, implementing, and scaling innovative mobility solutions, as well as the importance of collaboration between public authorities, industry, research organisations, and innovation ecosystems.

The session will conclude with an interactive discussion on future priorities, deployment needs and opportunities for regional and local stakeholders to engage in and benefit from European automated mobility initiatives.

14:30	Welcome and set the scene <i>Françoise Guaspare, ERRIN Transport WG</i>
14:40	European Research and Innovation Landscape for Automated Mobility <i>Marzena Jougonoux, DG RTD</i>
14:55	CCAM Testbeds: Supporting Real-World Deployment <i>DG MOVE</i>
15:10	Q&A session

15:25	Public Authorities' Perspective on Automated Mobility Deployment Introduction <i>Françoise Guaspare</i> Study on CCAM in Catalonia <i>Karim Hassan Hosny</i> Presentation of the CCAM ambassador project: Supporting Stakeholder Transition Towards Connected, Cooperative and Automated Mobility <i>Laura Babio, POLIS</i>
16:20	Updates from the secretariat <i>Gaia Marotta, ERRIN</i>
16:30	Close of the meeting
